Yet prices show net gains today extending to over a politi in many cases, and the extreme recoveries from the lowest show variations which compare favorably with the violent changes of last Montay and Wedinesday. The market was exceedingly feverish and erratle during all of the Iwo hours assisten, in spite of the paucity of news, varying sentiments being fed by surmises rather than news. Estimates and opinions vary widely as to how far the imports of gold, which low amount to over \$8,00,000 from Coroge have been drawn against current rain and cotton bills and how much of the accumulated exchange against Surges still remains in New York as colatent for bans. That there is still a theral supply of exchange to be liquidated is generally believed. Princeton, N. J., April 2,-The pe | 5.12% | 15.29 | 5.15 | 5.27% bility of war aroused a frenzied exhibition of patriotism among the students of the university last night. The movement was wholly spontaneous, and was started by a few seniors, about 11 dents of the university last night.

was statical by a few semors, about 11 o'clock.

"All out for war," was the cry raised, and in a very short time a large part of the students' body was out yelling around the historic cannon which did service in the revolutionary battle of Princeton, and which now is the hub of Princeton, and which now is the hub of Princeton life. A parade was next organized, the line of march being down Nassau street to the home of ex-President Cleveland.

Repeated calls failed to bring the ex-president out for the desired speech, so the crewd continued, the next stop being at Prospect, the home of President Patton of the university. President Patton of the university. President Patton made a very patriotic and yet conservative speech. While heping that war might even yet be averted, he was nevertheless of the orinion that we should be careful to satisfy ourselves that national honor was not assailed. As the next demonstration of the evening, a large bonfire was kindled on top of the old cannon, and for two hours the students relied and sung patriotic songs. Music has its grand old men as well as politics. Verdi, whose latest compositions are shortly to be performed in Paris, is in his eighty-fifth year. But the doyen of the profession is Manuel Garcia, who will be 93 in another fortnight, and is still an assiduous concert-goer. This wonderful veteran was born three years before his brilliant sister, Mailbran, whose brief ca-

reer was closed 62 years ago. He vis-lited America with the first Italian op-era company that ever crossed the At-lantic, in 12% and on his return to France soon rose to force as the g-est single-master of the age. After the revolution of 184s he went to man-land, which has been his home for nearly 10 years. Carcia was the master of Jessey Lind.

In the recent performance of "Said Pasha," at Provo, Professor Weihe was unable to go with the company, owing to an engagement at the theatre. Professor McClelian took his place as conductor, Arthur Shepherd presiding at the plane, and though to rehearns was had with the chorus, Professor McClelian took the performance through with scarcely a hitch.

BOYS' CLOTHING.

Most all clothes look well when new, but how about them after they've been worn for some time: then is the time to judge of their merit. We claim there is more good hard wear in one of our boy's knee pants suits than in any other and when this greatest clothing store makes a claim, you can put it down as so. Money back if we're not right; that's plain talk, isn't

it? We've good Knee Pants Suits at \$1.50, and fine all-wool suits at \$2.50-stand a whole lot of knockyou some handsome things at \$4, \$4.50 and \$5.Some of the best value we ever had in brown and gray plaids—these all come double-seat and double knes. YOUNG MEN'S

There are thousands of young men buying poor clothing and spend-ing too much money everybody can't judge qualities at first sight, and no other store is willing to re-fund money if anything is wrong. Nebody runs any possible risk to fund money if anything is wrong. Nobody runs any possible risk in buying here. We take particular care in selecting our clothing for young men. We can give you the same style, same materials, and same fit as your tailor—and only charge you about half. Our Suits start at \$3, pretty good ones, too, for that price—at \$4 we've a fine black cheviot; at \$5 some nobby things in brown mixtures and piaids; at \$6 black cheviots and brown piaids; at \$7.50 clay worsteds, brown and gray plaids; at \$10 clay worsteds and black cheviots; and at \$10, \$12 and \$15 some of the handsomest novelties in fancy plaids.
